

The PGU 9500 with character, up to your taste

REGO-FIX now offers you the opportunity to customize your powRgrip automatic unit. Use your company's colors, logo or coat of arms to brand your PGU or submit a custom design.

Select one of three customization templates in the color or marking of your choice to precisely fit your company's needs.

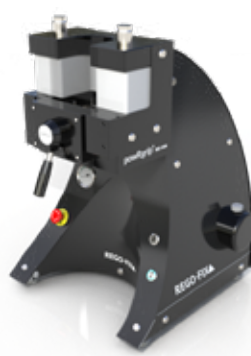

Option 1

wrapping of front and back panel (2 pieces, all one color)

Option 2

complete wrapping of all panels (5 pieces, all one color)

Option 3

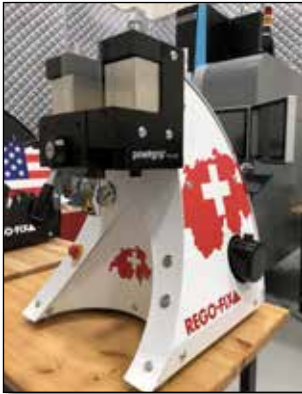

complete wrapping of all panels (5 pieces, multi-colored design)

For price information about our wrapping options, please do not hesitate to contact your REGO-FIX Sales team.

Why powRgrip® ?

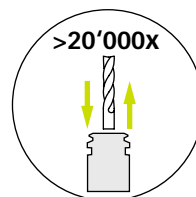

powRgrip® is the safest, fastest and strongest toolholding assembly system. With its award-winning design, powRgrip® provides excellent runout and high-vibration dampening as well as easy and secure handling for demanding high-speed milling and drilling. And, it's safe - **no** heat, **no** fumes and **no** EMF radiation!

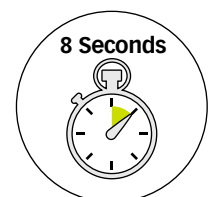

Total system runout
TIR $\leq 3 \mu\text{m}$ at $3 \times D$.

Excellent vibration dampening.

Maximum clamping force
and low runout, even after
20'000 tool changes.

Tool ready for use in
8 seconds.

Test powRgrip® free of charge !
